Professional Summary

Java Full Stack Developer with 2+ years of hands-on experience in building scalable web applications through freelance projects and internship. Skilled in Spring Boot, React.js, MySQL, and integrating APIs including AI-based services. Strong in developing end-to-end systems, optimizing performance, debugging complex issues, and delivering efficient, secure solutions using Agile methodologies.

Education

Krishna University College of Engineering And Technology

B.Tech in Computer Science and Engineering | GPA: 7.04

Sri Srinivasa Junior College

Intermediate (MPC) | GPA: 7.62

Machilipatnam, India

Aug 2018 - July 2022

Vissannapeta, India

June 2016 - Apr 2018

Skills

Languages: Java, JavaScript, TypeScript, python

Frontend: React.js, HTML5, CSS3, Bootstrap, Redux

Backend: Spring Boot, Spring MVC, JDBC, Node Js

Database: MySQL, Supabase

Tools: Git, GitHub, Postman, VS Code, Eclipse, Antigravity, Lovable, figma

Concepts: REST APIs, JSON, SDLC, Agile, Debugging, Code Optimization, System Design (Basics), OS Fundamentals, DSA

Professional Experience

Associate Software Engineer Intern(Go live Games)

Oct 2025 – April 2026

- Developed a Box Cricket Booking Web Application using React.js and TypeScript with real-time booking features
- Integrated Supabase APIs and handled structured data using JSON for seamless frontend-backend communication
- Built a browser-based game using Cocos2d and Antigravity IDE with interactive animations
- Integrated external APIs and explored AI-based service integration for enhanced user experience
- Performed end-to-end debugging, API testing, database validation using Postman.
- Improved UI responsiveness and optimized performance through efficient state management

Self- Driven Full Stack Developer

jan 2024 - sep 2025

- Developed full-stack web applications using Spring Boot, React.js, and MySQL for HRMS and chat-based systems
- Designed REST APIs and implemented secure authentication and CRUD operations
- Optimized SQL queries and backend workflows to improve application performance and scalability
- Performed API integration, debugging, and database validation using Postman and browser developer tools
- Built reusable frontend components and responsive UI using React.js and Bootstrap

Projects

Online Chat Application

Spring Boot, React.js, My Sql

- Developed a real-time chat application using Spring Boot and React.js with authentication, REST APIs, and optimized state updates for responsive user interaction.
- Integrated APIs for dynamic data exchange using JSON
- Improved application performance through debugging and efficient state updates

HRMS Portal (Employee Management System)

Spring Boot, React.js, MySQL

- Developed a full-stack HRMS system with employee records, leave tracking, and authentication
- Implemented role-based access control and secure REST APIs Optimized backend queries and improved performance.
